QUANTUM FX

QUANTUM FX is a group of traders with over six years of experience, day-trading in the Forex market. Our successes, as well as our aversion to risk, have led to the development of an automated trading system that instantly capitalizes on daily market trends, while simultaneously locking in profits. Subsequently, this system leads to maximal profits, and minimal portfolio risk.

The QUANTUM FX Fund

Our unique model has been developed over the past several years to incorporate an advanced risk management system. Our model reduces risk not only by identifying market trends, but also by continuously revising stop-losses based on mathematical algorithms. As risk is minimized, profits are maximized by the lack of human emotion and interference. When the system identifies a market trend, it opens the position instantly, and subsequently closes it after profit targets are met. This model seeks market movement for both positive and negative trends. With a defined set of rules, the system chooses only the deals that present opportunities for quick and profitable moves. Unlike most funds, our reliance on automated mathematical algorithms ensures that positions are filled at the most opportune moment, and that losses are continuously minimized.

Compounded Yield

Trade Executions / Settlements

Trades are executed via Finexo's internet trading platform, and are settled directly with Saxo Bank.

Awards

Profit & Loss Awards Best Retail Platform Honour to Saxo Bank
30 March, 2007: Saxo Bank was awarded Best Retail platform by Profit & Loss Magazine. The magazine highlighted Saxo Bank's commitment to customer service and the wide array of markets and instruments available on its signature platform, the SaxoTrader, which gives investors access to over 160 FX crosses, including many emerging markets currencies. In commenting on Saxo Bank's retail offering, Profit & Loss observes, "Ultimately, we see the Saxo model as fulfilling the basic criteria of servicing a predominantly retail client base - its model is built around the longevity of relationship and not how quickly a client loses money."

Best Retail Platform at the 3rd annual e-FX Awards
12 July, 2006: Best in class: Saxo Bank took home the award for Best Retail Platform at the 3rd annual e-FX Awards, sponsored by FX Week Magazine in New York. This is the latest in a string of accolades awarded by the industry's leading trade publications. In presenting the top prize, FX Week editor Simon Falush, speaking on behalf of the awards jury, cited Saxo Bank's rapid growth from its origins as a regional FX provider to becoming a respected peer of the world's largest financial institutions.

Saxo Bank clinches top honors in Euromoney FX Poll
4 May, 2006: Saxo Bank picked up honors in three categories in this year's Euromoney FX Poll, widely regarded as the industry benchmark for foreign exchange trading. The bank won accolades in three categories, Multi Bank Platform, Single Bank Platform and the Aggregated Awards. In the single bank platform category, Saxo Bank took top honors in quality of pricing, research and analysis, FX options and prime brokerage, and finished in the top three in speed of execution and post-trade services. In the multi-bank platform category, Saxo Bank took first place in speed of execution, price improvement capacity and research and analysis, and finished in the top three in straight-through processing.

Saxo Bank Captures "Best Retail Platform" e-FX Award in New York
14 July, 2005: The editors and judges at FX Week awarded "Best Retail Platform for FX trading" to Saxo Bank at its second annual US congress, FX Week USA 2005. This closely watched and competitive category effectively crowns the winner as the thoroughbred of the industry. The SaxoTrader, a multi-product information, execution and risk management platform, stepped past competing offerings from FXCM, CMC, Gain Capital and many other well-known platforms marking its eighth consecutive blue ribbon performance since entering the awards field in 2003.

Disclaimer

The QUANTUM FX is a constantly developing service. New strategies are continuously being tested, and market conditions may occasionally alter previously-applied strategies. This may lead to changes in time-frame, exposure size, or any other aspects of a specific trade. The Fund Management Team reserves the right to deviate from strategies, refrain from following signals, and/or open and close positions based on different strategies than those previously applied. Therefore, investors should be aware that any description given is only an indication of the principles and strategies applied, and does not guarantee strategy or performance. Past performance is no guarantee of future results. The only guarantee is that investment losses cannot exceed the amount invested.

All investment decisions in the QUANTUM FX Fund are at the sole digression of the Fund Management Team. QUANTUM FX reserves the right to change the Fund Management Team without prior notice. Further explanation of the conditions and risks involved are available in the contract. Before investing, investors are required to accept and sign both the contract and the risk disclosure statement.
